Subject index

Acetone,
reduction and oxidation of adsorbed ——— at platinum electrodes studied by DEMS (Bänsch et al.) 207
Algae modified electrodes,
electrocatalysis at ——— (Wang et al.) 295

$(bpy)_2(H_2O)RuORu(OH_2)(bpy)_2^{4+}$,
a carbon molecular-sieve paste electrode modified with the ruthenium oxo-bridged dimer ——— for electrocatalysis of benzyl alcohol oxidation (Kutner) 99
Benzyl alcohol,
a carbon molecular-sieve paste electrode modified with the ruthenium oxo-bridged dimer $(bpy)_2(H_2O)RuORu(OH_2)(bpy)_2^{4+}$ for electrocatalysis of ——— oxidation (Kutner) 99

Cadmium,
mechanism of the reduction of ——— ions at a dropping mercury electrode from $NaClO_4$ base electrolyte solutions with varied water activity (Saakes et al.) 265
Carbon,
a ——— molecular-sieve paste electrode modified with the ruthenium oxo-bridged dimer $(bpy)_2(H_2O)RuORu(OH_2)(bpy)_2^{4+}$ for electrocatalysis of benzyl alcohol oxidation (Kutner) 99
Electrocatalytic properties of bifunctional Pt/W(VI,V) oxide microstructures electrodeposited on ——— substrates (Kulesza, Faulkner) 81
Carbon dioxide,
electrocatalytic reduction of CO_2 by a complex of rhenium in thin polymeric films (O'Toole et al.) 217
Carbon monoxide,
voltammetric behaviour of electrocatalytic poisons for the electro-oxidation of ———, formic acid, formaldehyde and methanol on electrodispersed platinum in acidic solutions (Castro Luna et al.) 173
Chronoamperometry,
——— for the determination of some electrode parameters using microelectrodes (Liu et al.) 39
Cobalt,
electrochemical and thermometric study of the ——— electrode in nitric acid (Stupnišek-Lisac, Takenouti) 147
Copper,
in-situ, real time monitoring of electrode surfaces by scanning tunneling microscopy. Construction of an STM system and its application to electrodeposition of ——— on polycrystalline platinum (Uosaki, Kita) 301
Coumarin,
achievement of incident photon to electric current conversion yields exceeding 80% in the spectral sensitization of titanium dioxide by ——— (Enea et al.) 59

Diffusion boundary layer,
space–time fluctuations of a passive impurity concentration within the ——— in the turbulent flow of a fluid (Skurygin et al.) 285
Diffusion coefficients,
improvements in rotation rate step experiments to evaluate ——— at rotating disk electrodes (Blauch, Anson) 1

Electrode parameters,
chronoamperometry for the determination of some ——— using microelectrodes (Liu et al.) 39

Ferrocene,
modification of adsorption components of the processes for reduction of selenium(IV) and oxidation of ——— at gold electrodes in frozen aqueous perchloric acid electrolyte (Bond, Lu) 189

Formaldehyde,
voltammetric behaviour of electrocatalytic poisons for the electro-oxidation of carbon monoxide, formic acid, ——— and methanol on electrodispersed platinum in acidic solutions (Castro Luna et al.) 173
Formic acid,
voltammetric behaviour of electrocatalytic poisons for the electro-oxidation of carbon monoxide, ———, formaldehyde and methanol on electrodispersed platinum in acidic solutions (Castro Luna et al.) 173

Glucose,
——— concentration measurement using immobilized glucose oxidase (Špirko et al.) 155
Glucose oxidase,
glucose concentration measurement using immobilized ——— (Špirko et al.) 155
Gold,
evidence of two differently charged mercury species in underpotential deposits on ——— by impedance spectrometry (Salié) 315
Modification of adsorption components of the processes for reduction of selenium(IV) and oxidation of ferrocene at ——— electrodes in frozen aqueous perchloric acid electrolyte (Bond, Lu) 189

Hydrohalogenic acid,
conductivity of sorbed ——— in Nafion perfluorosulfonic membranes (Pourcelli et al.) 113

Immiscible electrolyte solutions,
photochemical ion transfer across the interface between two ——— (Samec et al.) 309
Ion transfer,
photochemical ——— across the interface between two immiscible electrolyte solutions (Samec et al.) 309
Iron naphthalocyanine,
effect of the nature of ——— supports on their activity for O_2 reduction in acid media (Coowar et al.) 241

Mercury,
evidence of two differently charged ——— species in underpotential deposits on gold by impedance spectrometry (Salié) 315
Mechanism of the reduction of cadmium ions at a dropping ——— electrode from $NaClO_4$ base electrolyte solutions with varied water activity (Saakes et al.) 265
Methanol,
voltammetric behaviour of electrocatalytic poisons for the electro-oxidation of carbon monoxide, formic acid, formaldehyde and ——— on electrodispersed platinum in acidic solutions (Castro Luna et al.) 173
Microelectrodes,
chronoamperometry for the determination of some electrode parameters using ——— (Liu et al.) 39

Nafion,
conductivity of sorbed hydrohalogenic acid in ——— perfluorosulfonic membranes (Pourcelli et al.) 113
Nitric acid,
electrochemical and thermometric study of the cobalt electrode in ——— (Stupnišek-Lisac, Takenouti) 147

Oxometalates,
surface functionalization with ——— entrapped in polymeric matrices. Part I. New and remarkably stable poly(4-vinylpyridine) based redox coatings (Keita et al.) 127
Oxygen,
effect of the nature of iron naphthalocyanine supports on their activity for O_2 reduction in acid media (Coowar et al.) 241

Passive impurity,
space–time fluctuations of a ——— concentration within the diffusion boundary layer in the turbulent flow of a fluid (Skurygin et al.) 285
Perchloric acid,
modification of adsorption components of the processes for reduction of selenium(IV) and oxidation of ferrocene at gold electrodes in frozen aqueous ——— electrolyte (Bond, Lu) 189
Photon to electric current conversion,
achievement of incident ——— yields exceeding 80% in the spectral sensitization of titanium dioxide by coumarin (Enea et al.) 59
Planar electrodes,
unified treatment for potentiostatic voltammetry at spherical electrodes and ——— (Galvez, Park) 21

Platinum,
electrocatalytic properties of bifunctional Pt/W(VI,V) oxide microstructures electrodeposited on carbon substrates (Kulesza, Faulkner) 81
In-situ, real time monitoring of electrode surfaces by scanning tunneling microscopy. Construction of an STM system and its application to electrodeposition of copper on polycrystalline ——— (Uosaki, Kita) 301
Reduction and oxidation of adsorbed acetone at ——— electrodes studied by DEMS (Bänsch et al.) 207
Voltammetric behaviour of electrocatalytic poisons for the electro-oxidation of carbon monoxide, formic acid, formaldehyde and methanol on electrodispersed ——— in acidic solutions (Castro Luna et al.) 173
Polymeric films,
electrocatalytic reduction of CO_2 by a complex of rhenium in thin ——— (O'Toole et al.) 217
Polymeric matrices,
surface functionalization with oxometalates entrapped in ———. Part I. New and remarkably stable poly(4-vinylpyridine) based redox coatings (Keita et al.) 127
Poly(4-vinylpyridine),
surface functionalization with oxometalates entrapped in polymeric matrices. Part I. New and remarkably stable ——— based redox coatings (Keita et al.) 127
Potassium selective membranes,
electrical and dynamic properties of non-plasticized ——— (Lindner et al.) 67
Potentiostatic voltammetry,
unified treatment for ——— at spherical and planar electrodes (Galvez, Park) 21

Rhenium,
electrocatalytic reduction of CO_2 by a complex of ——— in thin polymeric films (O'Toole et al.) 217
Rotating disk electrodes,
improvements in rotation rate step experiments to evaluate diffusion coefficients at ——— (Blauch, Anson) 1
Rotation rate,
improvements in ——— step experiments to evaluate diffusion coefficients at rotating disk electrodes (Blauch, Anson) 1
Ruthenium,
a carbon molecular-sieve paste electrode modified with the ——— oxo-bridged dimer $(bpy)_2(H_2O)RuORu(OH_2)(bpy)_2^{4+}$ for electrocatalysis of benzyl alcohol oxidation (Kutner) 99

Scanning tunneling microscopy,
in-situ, real-time monitoring of electrode surfaces by ———. Construction of an STM system and its application to electrodeposition of copper on polycrystalline platinum (Uosaki, Kita) 301
Selenium,
modification of adsorption components of the processes for reduction of ———(IV) and oxidation of ferrocene at gold electrodes in frozen aqueous perchloric acid electrolyte (Bond, Lu) 189
Sodium perchlorate,
mechanism of the reduction of cadmium ions at a dropping mercury electrode from $NaClO_4$ base electrolyte solutions with varied water activity (Saakes et al.) 265
Spherical electrodes,
unified treatment for poten tiostatic voltammetry at ——— and planar electrodes (Galvez, Park) 21
Surface-active particles,
method to determine the concentration of ——— in aqueous solutions (Tomaić et al.) 49

Titanium dioxide,
achievement of incident photon to electric current conversion yields exceeding 80% in the spectral sensitization of ——— by coumarin (Enea et al.) 59
Tungsten oxide,
electrocatalytic properties of bifunctional Pt/W(VI,V) oxide microstructures electrodeposited on carbon substrates (Kulesza, Faulkner) 81
Turbulent flow,
space–time fluctuations of a passive impurity concentration within the diffusion boundary layer in the ——— of a fluid (Skurygin et al.) 285
